- Listing on SCWC website with link
- Annual listing in SCWC Newsletter as Bronze Sponsor
- Option to participate in SCWC tradeshows

**A Sponsor may participate in SCWC Committees.**

### **Weather Information Sponsor:**

**We would like to offer a few companies the opportunity to sponsor the weather information service, with phone and internet access provided by Fox Weather, LLC.** Many growers check the weather updates twice daily and rely on this information for frost and heat forecasts as well as for scheduling viticultural operations. The weather information provided by Fox Weather is a valued tool for grape growers.

**For an additional \$1500 per year, your company can have two ways of promoting your company:**

- one day a week of providing the weather forecast on the internet site. You can feature your company logo and tag line or a short message.**
- a very brief message on the phone line so that growers are aware of your sponsorship. This will rotate on a weekly basis through the sponsors.**

**(For additional funds, you can opt for multiple days.)**

**This is a unique opportunity to show your support for Commission programs.** If you are interested in more information or signing up to be a weather sponsor, please contact Ginger Baker at 707-522-5864.

**Please note that the business of all sponsors must be reasonably related to the winegrape and/or wine industry in Sonoma County, and cannot be political in nature.**
