SONOMA COUNTY

WINE REGIONS

60,000 ACRES OF GROWING OPPORTUNITIES

By some cosmic act of great fortune, Sonoma County won the geological lottery.

Sonoma County's seventeen AVA's define the diversity of this renowned wine region and exhibit a far greater variety of grapes and wine styles than you will find anywhere else. From the highly regarded Chardonnays and Pinot Noir's of the Russian River Valley and Sonoma Coast, to the dense flavorful Zinfandels of Dry Creek Valley and distinctive, approachable Cabernet Sauvignons of Alexander Valley and Sonoma Valley, Sonoma County's range of geography - valleys to mountains, coastal ranges to inland bench lands, is second to none. The size and distance between these distinctive AVA's ensures individualism of wines, viticulture and sustainable winegrowing approaches, and myriad philosophies of winemaking.
